## FEATURE CACTUS PLANTS TO INCREASE YOUR TRAFFIC

Cactus Plants are novel. They are something that can't be picked in any garden, can't be purchased on every corner. They seem to satisfy a wonderlust in people who can't travel as much as they would like to.

As one of the largest and oldest cactus growers in the business, we operate and cover both a 20 acre cactus garden of our own and over 400,000 acres of virgin desert lands.

We have designed a traffic builder and profit promoter for retail stores that has proved tremendously successful. One of the assortments on the other sheet will stimulate sales for your business.

One store in New Orleans sold over 1,000 midget Cactus Gardens in a single week, which means both 1,000 customers for the cactus garden itself and 1,000 prospects for other merchandise in the store.

We enclose a catalogue sheet showing this BIGGEST little promotion for retail stores, and prices for a special promotion.

We will send you FREE several window strips that will feature this idea and help still further in increasing your business. Order now for immediate shipment.
